RESCHEDULED

PAVING PROJECT ON STATE ROUTE 138 FROM EAST OF INTERSTATE 15 TO STATE ROUTE 173

SAN BERNARDINO COUNTY – The California Department of Transportation (Caltrans) will begin construction of a pavement project on State Route 138 from east of Interstate 15 near Summit to east of North Access Road and from west of Summit Post Office Road to the SR 138/173 interchange. The project has been rescheduled for Wednesday, August 18, 2004 and will continue for approximately two weeks. The work will take place Monday through Friday from 7:00 a.m. to 4:00 p.m.

Lanes will be closed alternately with a flagging operation to allow motorists to pass through the construction zone. The California Highway Patrol (CHP) will be present during work hours and will assist you traffic control. The pavement project will repave sections of SR 138 with a seal coat to provide a smoother ride for motorists.

Please slow down as you approach the construction area and allow the flaggers and CHP to guide you through the closure. Be patient with other motorists and drive with caution through the work area. The life you save may be your own, please slow for the cone zone.
